**A huge thank you to every member of our team, Julie, Tracy,
Dave, Bramble & Milo**

**and also to our wonderful customers who have
supported us along the way.**

Green Energy Investment

We have further increased our Green Energy from the use of our 2 Air Source Heat Pumps to installing 60 Solar Panels in November. The benefits were immediately noticeable even on an overcast November day.

‘Herd Energy’ a local supplier of Solar energy use their knowledge to instal Solar that is specific to your business energy needs. The ongoing support after installation allows for our energy consumption to be monitored before making a decision of whether our business would benefit from having a battery installed or not, with the system fitted allowing an easy ‘plug in’ solution if and when the time arises.

- **40% reduction in grid electricity**
- **use 2.5 tonnes CO2e avoided annually**

Our Pledge for Nature

The Grange Caravan Park have signed up to the David Bellamy Blooming Marvellous Pledge for Nature.

As part of the pledge we were visited by FWAG (Farming & Wildlife Advisory Group) who provided us with a glowing report of the work we have completed to our Park with our planting of trees & hedgerow shrubs, siting of bird & wildlife boxes, extending our pond, management of the planting a grassy areas (letting nature be a tad scruffy is a happy place for wildlife) and our future plans to help nature and the environment.
